

RESEARCH OVERVIEW

My lab’s research brings a data-driven approach to understanding and improving the Internet’s performance and security, both on the ground and in space. We build systems that collect data about network, operator, and attacker behaviors. We analyze the data our systems collect to surface operational challenges and threats.

POSITIONS

- Assistant Professor, Electrical and Computer Engineering, *University of California, Los Angeles* July 2024–Present
 – Area Director, Systems and Signals July 2026–Present
- Founding Lead Scientist, *Infrawatch* August 2026–Present
- Research Scientist, *Netflix* June 2023–May 2024, May 2025–June 2026
- Research Scientist, *Censys* June 2024–May 2025

EDUCATION

- Ph.D. in Computer Science, *Stanford University* 2018–2024
 Dissertation: “A Comprehensive and Real-Time View of the Internet Service Ecosystem”
 Advisor: Zakir Durumeric
- M.S. in Computer Science, *University of California, San Diego* 2017–2018
 Thesis: “Building and Breaking Burst-Parallel Systems”
 Advisors: Geoff Voelker and George Porter
- B.S. in Computer Science, *University of California, San Diego* 2014–2017
 Minor: Mathematics

HONORS AND AWARDS

- AI in Teaching Faculty Fellow, UCLA 2026
- Hellman Fellow, UCLA 2026
- Forbes 30 Under 30, Science 2025
- Pulse Research Fellow (Mentor), Internet Society 2025
- EECS Rising Star, International Recognition 2023
- Community Impact Award, Stanford University 2023
- Student Services Award, Stanford University Computer Science Department 2023
- Community Contribution Paper Award, ACM Internet Measurement Conference 2022
- Graduate Research Fellowship, National Science Foundation (“NSF GRFP”) 2018
- Graduate Fellowship in Science and Engineering, Stanford University (“Stanford SGF”) 2018
- Department Award for Excellence in Teaching, UC San Diego 2018

Thesis

- [22] L. **Izhikevich**, “Building and Breaking Burst-Parallel Systems”, M.S. thesis, University of California, San Diego, 2018.
- [23] L. **Izhikevich**, “A Comprehensive and Real-Time View of the Internet Service Ecosystem”, Ph.D. dissertation, Stanford University, 2024.

PROFESSIONAL SERVICE

Technical Program Committees

- | | |
|--|--------------|
| • USENIX Security | 2025–Current |
| • Internet Measurement Conference | 2023–Current |
| • SIGCOMM Next-Generation Network Observability Workshop | 2025 |
| • IEEE Security and Privacy | 2023 |
| • Symposium on Research in Attacks, Intrusions, and Defenses | 2022–2023 |
| • The Passive and Active Measurement Conference | 2022 |
| • IEEE Security and Privacy (External Reviewer) | 2022 |
| • USENIX Security (External Reviewer) | 2019–2022 |
| • Internet Measurement Conference (External Reviewer) | 2019–2021 |

Department and University Service

- | | |
|--|--------------|
| • Area Director for Systems and Signals ECE, UCLA | 2026–Current |
| • Institute for Digital Research and Education Board, UCLA | 2026–2029 |
| • AI in Teaching Faculty Fellow, UCLA | 2026–2027 |
| • DGE Eugene Cota-Robles Faculty Review Committee, UCLA | 2026 |
| • One-IT Working Group, UCLA | 2026 |
| • Computer Engineering Faculty Search Committee – Chalk Talk Coordinator, UCLA | 2025 |
| • Founder and Organizer of the Cross-Department Security Seminar, UCLA | 2024–2025 |
| • Data Science Faculty Search Committee, Stanford University | 2022–2023 |
| • Ethics & Society Review of HAI Seed Grants Committee, Stanford University | 2022 |
| • Chair of Ph.D. Applicant Support Program, Stanford University | 2021–2023 |

- Ph.D. Admissions Committee, Computer Science, Stanford University 2019–2022

External Service

- Grant Proposal Reviewer, Dutch Research Council 2025
- Mentor for Pulse Research Fellows, Internet Society 2025

TEACHING

- ECE239AS: Advanced Networking and Security, UCLA Spring 2025, Spring 2026, Spring 2027
- ECE132B: Data Communications and Telecommunication Networks, UCLA Fall 2025, Winter 2026
- ECE133A: Applied Numerical Computing, UCLA Fall 2026

ADVISING AND MENTORING

Ph.D. Students

- Manda Tran (M.S., Ph.D.) 2024–Current
- Rahul Tripathi (M.S., Ph.D.) 2025–Current
- David Budziwojzki (M.S., Ph.D.) 2026–Current

Post-Docs

- Ben Du 2025–Current

B.S/M.S Students (only those with a peer-reviewed article)

- Khiet Hyunh (B.S), 2025–Current
- Omar Elamri (M.S), Isaac-Neil Zanolis (M.S), Jacob Zhi (M.S), Dravya Jain (B.S), Dylan Truong (B.S) 2025
- Briana Berger (B.S/M.S.), Spencer Drakontaidis (B.S.), Anna Ascherman (B.S) 2021–2022
- Jack Cable (B.S.), Drew Gregory (B.S.), Maya Ziv (M.S.) 2020–2021

Doctoral Committees

- Fatemeh Arkannezhad (Ph.D., Electrical and Computer Engineering, UCLA, TBD)
- Grant Williams (Ph.D., Computer Science, Georgia Tech, July 2026)
- Alexander Vilesov, (Ph.D., Electrical and Computer Engineering, UCLA, June 2026)
- Howard Zhang (Ph.D., Electrical and Computer Engineering, UCLA, November 2025)
- Mine Dogan (Ph.D., Electrical and Computer Engineering, UCLA, May 2025)

Masters Committees

- Jacob Zhi (M.S, Computer Science, UCLA, June 2025)
- Fatemeh Arkannezhad (M.S, Electrical and Computer Engineering, UCLA, June 2025)

SPEAKING

- Arctic 2040: National Security Blueprint for the Navy
Invited at Office of Naval Research National Security and Naval Power Bootcamp June'26
- Global Visibility into the Performance, Operations, and Security of LEO Networks
Invited at CMU CyLab Seminar Feb'26; Brown Systems Seminar Feb'26
- Global Visibility into the Internet's Security and Performance
Invited at UCLA Engineering Alumni Board Meeting May'25; UCLA ECE Alumni Board Meeting Nov'25
- Past, Present, and Future of Low Earth Orbit Satellite Networks
Invited at Aerospace Corporation May'25; Stanford University March'25; Northrop Grumman Nov'25
- How to Succeed at Early Career Research
Invited Panelist at the Internet Measurement Conference October'24; Invited Panelist on the Networking Channel March '25
- Manipulating Congestion Control To Improve Video Streaming Over Starlink
Invited at IETF July '25
- A Global Perspective on the Past, Present, and Future of Video Streaming over Starlink
Invited at Netflix May'24; ACM SIGMETRICS June '25;
- Democratizing LEO Satellite Network Measurement
Invited at Netflix June'23; ACM SIGMETRICS June'24
- How to give an interesting talk for a SIGCOMM/NSDI audience
Invited Panelist on the Networking Channel March '23
- Cloud Watching: Understanding Attacks Against Cloud-Hosted Services
ACM Internet Measurement Conference October'22
- ZDNS: A Fast DNS Toolkit for Internet Measurement
ACM Internet Measurement Conference October'22
- Predicting IPv4 Services Across All Ports
ACM SIGCOMM August'22
- Finding Vulnerable Cloud Storage Buckets
Symposium on Research in Attacks, Intrusions, and Defenses October'21; Invited for UC San Diego Security Seminar '22
- Identifying Unexpected Internet Services
USENIX Security '21; Invited for Cornell Tech Security Seminar '21; Invited for Stanford Security Symposium'22
- Sprocket: A Serverless Video Processing Framework
UC San Diego Systems Seminar '18
